

With its 1'400 employees at 14 locations in Switzerland, skyguide is responsible for civil and military air traffic control. In order to respond to the developments in our Aeronautical Information Management AIM we are seeking a:

## PROJECT LEADER DATA MANAGEMENT

### MAIN TASKS:

- ➔ Operational management of projects in the context of the aeronautical data management system program ADMS and acting as AIM expert for such projects
- ➔ Ensure project development, know-how, quality and communication as well as training of staff involved
- ➔ Close support of the team leader "Aeronautical Data Management" in the development and implementation of future aeronautical data management systems and obstacle data integration (e.g. EU ADQ, eTOD)
- ➔ Further development of the business process model (business process modelling)
- ➔ Requirements engineering for new software tools and introduction of such into the data management team
- ➔ Close cooperation with the data management team (e.g. evolution of the quality management framework, documentation evolution etc.)
- ➔ Ensure the respect of all national and international quality requirements, standards and recommendations
- ➔ Participation, if required, in national and international meetings related to civil and military aeronautical data management

### REQUIRED PROFILE:

- ➔ Engineering (ETH), university or college (FH) degree with specialisation in information technology, geography, geodesy, geomatics or aviation
- ➔ several years of professional experience and, thereof, at least 2-3 years experience as project leader or other position with comparable managerial responsibility
- ➔ Proficient in project management and in the integration of data
- ➔ Professional competencies in requirements engineering and business process modelling
- ➔ Any know-how of AIM, data management or aviation would be an asset
- ➔ Understanding of international and national regulatory requirements and guidelines
- ➔ Reliable and quality-oriented person with distinct developing, implementing and motivating abilities combined with analytical and interpersonal qualifications
- ➔ Strong and credible character with excellent communication and negotiation skills and a sense for business continuity management
- ➔ Willingness to invest oneself in a new field of expertise
- ➔ Excellent command of English, fluency in German and French
- ➔ Ability to represent skyguide in national and international meetings

**Working place:** Wangen b. Dübendorf  
**Entry date:** 1<sup>st</sup> September 2010
